# Your website improvement plan

This page could not be audited. Restore access and run a new scan before choosing score improvements.

## 01 Restore access before planning changes

Create a reliable starting point for this website.

- Review the saved access failure and confirm that the intended public page can be opened.
- Check for unexpected login requirements, verification challenges or crawler restrictions, then run a fresh audit.

**Suggested owner: Web / platform team**

100 points to verify

Recheck: Run a complete audit once public access is restored.

## Measure the improvement

Complete an accessible audit first. Use the new category subscores to confirm the next priorities.

# Estimated task completion time

Time savings remain unknown because the page could not be audited.

# How you compare

A complete, accessible homepage audit is needed for a comparison.

# Make every agent visit faster

Work with InfiniteWatch to make your information and actions easier for agents to reach.

# Your audit findings

The evidence and next steps behind your saved score.

## Search & discovery - - / 10

### Clear page title

Needs verification | 0/1 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Search description

Needs verification | 0/1 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Allowed in search results

Needs verification | 0/3 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Access for search crawlers

Needs verification | 0/3 points (not counted in a blocked audit)

robots.txt could not be evaluated.

### Map of your website (sitemap)

Needs verification | 0/2 points (not counted in a blocked audit)

No valid sitemap found at the checked location. Other sitemap URLs may exist.

## Easy-to-use content - - / 10

### Content available when the page opens

Needs verification | 0/3 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Clear page structure

Needs verification | 0/2 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Easy-to-follow navigation

Needs verification | 0/2 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Clear button and form labels

Needs verification | 0/3 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

## Content prepared for AI - - / 10

### AI content guide (llms.txt)

Needs verification | 0/4 points (not counted in a blocked audit)

No readable llms.txt found at the checked location. This optional proposal is not required for search.

### Clearly titled AI guide

Needs verification | 0/3 points (not counted in a blocked audit)

No valid H1 was found in the checked llms.txt document.

### Useful links for AI assistants

Needs verification | 0/2 points (not counted in a blocked audit)

A summary and curated links were not both detected. These are quality recommendations.

### Text version for AI assistants

Needs verification | 0/1 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

## Customer actions - - / 40

### Customer actions listed for AI

Needs verification | 0/8 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Clearly explained actions

Needs verification | 0/4 points (not counted in a blocked audit)

Tool descriptions could not be verified from public source.

### Required information for each action

Needs verification | 0/5 points (not counted in a blocked audit)

Tool input schemas need browser or MCP connection verification.

### Action safety information

Needs verification | 0/3 points (not counted in a blocked audit)

Tool side effects and behavior annotations need manual review.

### Task-specific customer tools

Needs verification | 0/20 points (not counted in a blocked audit)

No task-specific customer tool could be confirmed from the sampled declarations. General site search, business details and generic API helpers do not establish a dedicated customer workflow.

## Connections for AI assistants - - / 20

### AI connection information

Needs verification | 0/8 points (not counted in a blocked audit)

No website-attributed MCP descriptor was found at the checked paths.

### Instructions for connecting AI assistants

Needs verification | 0/8 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Content labels AI can understand

Needs verification | 0/4 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

## Trust & availability - - / 10

### Secure website connection

Detected | 5/5 points (not counted in a blocked audit)

The server responded using HTTPS.

### Public page access

Not detected | 0/3 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.

### Contact or privacy information

Needs verification | 0/2 points (not counted in a blocked audit)

The website returned HTTP 403 (access denied). The requested page could not be read by this audit.
