Your website improvement plan

This page could not be audited. Restore access and run a new scan before choosing score improvements.

01 Restore access before planning changes

Create a reliable starting point for this website.

- Review the saved access failure and confirm that the intended public page can be opened.
- Check for unexpected login requirements, verification challenges or crawler restrictions, then run a fresh audit.

Suggested owner: Web / platform team

100 points to verify

Recheck: Run a complete audit once public access is restored.

Measure the improvement

Complete an accessible audit first. Use the new category subscores to confirm the next priorities.

Estimated task completion time

Time savings remain unknown because the page could not be audited.

How you compare

A complete, accessible homepage audit is needed for a comparison.
